Outgoing Editor-in-Chief

Editor-in-Chief

Roger Wäppling

Uppsala University, Sweden

Physica Scripta celebrated 40 years of successful publishing in 2010 and has, through the years, gone from being a journal devoted to the communication of results from research conducted by Swedish physicists to the present international journal for all aspects of physics. The journal has shown an impressive growth in its number of submissions (up 20% only last year), both in terms of regular papers and Topical Issues and the, unique to Physica Scripta, Comments sections. I have been associated with Physica Scripta for more than 25 years, the last 15 as Editor-in-Chief, and I have decided that the time has come to step down. I wish my successor as Editor-in-Chief, Dr Suzanne Lidström, all success in her new position.

I will follow the development of the journal through the web-page www.physica.org and I encourage you to do the same and also that you continue to submit high impact papers to our journal.
