New Journal of Physics **16** (2014) 079501

doi:[10.1088/1367-2630/16/7/079501](https://doi.org/10.1088/1367-2630/16/7/079501)

We found two errors in the paper ‘Thermal convection in a thermosensitive colloidal suspension’ (2010 *New J. Phys.* **12** 053003), which were both originally our mistake.

In table 1, two units are wrong. The solutal expansion β has no unit, while the unit of the Soret coefficient S_T is 1/K. The respective lines in this table should correctly read:

Solutal expansion	β		0.0938 ± 0.0004	—
Soret coefficient	(S_T)	(K^{-1})	0.35 ± 0.03	—
