The advertisement features a collage of images. On the left, the ECS logo is displayed with the text "The Electrochemical Society" and "Advancing solid state & electrochemical science & technology". In the center, there is a photograph of an industrial assembly line with several orange robotic arms working on a metal frame. To the right, a woman in a lab coat is shown looking at a colorful, multi-layered scientific sample or material. The overall theme is the intersection of sustainability and advanced materials research.

On page 6, equation (4) should be:

$$\begin{aligned}x' &= x - v\varepsilon\left(x - \frac{W}{2}\right) \\y' &= y(1 + \varepsilon).\end{aligned}\tag{4}$$
