Peer review declaration

All papers published in this volume of **Journal of Physics: Conference Series** have been peer reviewed through processes administered by the Editors. Reviews were conducted by expert referees to the professional and scientific standards expected of a proceedings journal published by IOP Publishing.

Type of peer review: Single-blind / Double-blind / Triple-blind / Open / Other (please describe) ISCPS Conference follow Double-Blind Review where all received articles are checked for similarity through the official account of **Turnitin**. All the Articles passed the similarity given to random authors for evaluation and given us their reports in certain forms, according to double review decision and Editors decision the paper either accepted, revised or rejected.

☐

Conference submission management system: At the beginning of Conference CFP has been received through Easy chair, then we are considering our own design system where the paper can be submitted, and tracked through this system, all papers has its own ID, for evaluation progress later.

☐

Number of submissions received: At the Beginning we received 221 submission from all authors that comes from more than 8 countries, we consider only 210 papers for further progress, the conference organizers, scientific committee, guest Editors consider only the suitable submission (210) for further process.

☐

Number of submissions sent for review: Total Number sent for reviews was 210 and based on scientific committee decision and guest editor decision and alternative reviewers.

☐

Number of submissions accepted: Out of 210 Accepted Articles, we processed only 121 Articles due to the following reasons:

- ☐ Some Corresponding authors do not complete the revision in well.
- ☐ Some Papers do not complete the Copyright and Payments.
- ☐ Some papers either published somewhere.
- ☐ Some papers rejected based on editor's decision.

☐

Acceptance Rate (Number of Submissions Accepted / Number of Submissions Received X 100): Total Number of Received Papers = 221.

Total Number of Accepted Papers = 121

$$\text{Acceptance Rate} = \frac{\text{Number of Submission Accepted}}{\text{Number of Submission Received}} \times \% = \frac{121}{221} = 55\%$$

- **Average number of reviews per paper:** 2 Reviewers for Each Paper
- **Total number of reviewers involved:** 151 Reviewers
 - **Any additional info on review process:** Each paper Assigned to 2 reviewers once passed the technical check.
 - Once Review Reports received the decision of Guest Editor will be as 3rd reviewer on each certain paper.
