The New PAT-Cell-Solid!

EL-CELL®
electrochemical test equipment

Cycle Solid-State Batteries Under Controlled Pressure of up to 300 MPa (6 mm Diameter)!

- Adjust and measure a force of up to 9000 N on the cell stack!
  Force adjustment possible throughout the entire experiment
- Built-in force, and temperature sensors!
  With optional gas pressure sensor and gas in- and outlet
- PAT-Solid-Core for easy assembly and reproducible results!
  Press and cycle solid-state batteries with 6 or 10 mm electrode diameter
- Cableless and highly sealed battery test cell!
  For precise long-term measurements of solid-state cell chemistries
