ECS Awards, Fellowships, Grants

ECS recognizes outstanding technical achievements in electrochemistry, solid state science, and related technologies, along with exceptional service to the Society. ECS award opportunities are provided in the categories of Society Awards, Division Awards, Section Awards, and Student Awards.

Recognizing that today's emerging scientists are the next generation of leaders in our field, ECS offers competitive fellowships and grants that enable students and young professionals to make discoveries and shape science long into the future.

Visit www.electrochem.org/awards for more information.

Society Awards

ECS Carl Wagner Memorial Award: Established in 1980, the award recognizes mid-career achievement, excellence in research areas of interest to the Society, and significant contributions in the teaching or guidance of students or colleagues in education, industry, or government. The award consists of a sterling medal, wall plaque, ECS Life Membership, complimentary meeting registration, and travel assistance up to $1,000.*

Nomination deadline: October 1, 2024

ECS Olin Palladium Award: Distinguished contributions to the fields of electrochemical or corrosion science are recognized by this award established in 1950. The award consists of a palladium medal; wall plaque; $7,500; ECS Life Membership; and complimentary meeting registration.

Nomination deadline: October 1, 2024

ECS Toyota Young Investigator Fellowship: Established in partnership with the Toyota Research Institute of North America in 2015, the award encourages young professionals and scholars to pursue research on batteries, fuel cells, hydrogen, and future sustainable technologies. Each year, at least one candidate receives the fellowship restricted grant of no less than $50,000 to conduct the proposed research within one year, and a one-year complimentary ECS membership. Recipients present at a Society biannual meeting and publish their research in a relevant ECS journal within 24 months of receiving the award.

Materials are due by January 31 of each year.

Leadership Circle Awards: Established in 2002 to honor and thank our electrochemistry and solid state science partners, these awards are granted in the year that an institutional member reaches a milestone level. Awardees receive a commemorative plaque and recognition on the ECS website and in *ECS Interface* magazine.

Nominations are not accepted

Section Awards

Pacific Northwest Section Electrochemistry Research Award Sponsored by Gamry Instruments: Established in 2021, the award recognizes excellence in electrochemistry and solid state science and technology research by an independent scientist or engineer working in Washington, Oregon, or Idaho. The award consists of a framed certificate and $1,000.

Nomination deadline: July 15, 2024

Student Awards

Biannual Meeting Travel Grants: Many ECS divisions and sections offer travel grants to undergraduates, graduate students, postdoctoral researchers, young professionals, and faculty presenting papers at ECS biannual meetings. The awards consist of financial support ranging from complimentary meeting registration to luncheon/reception tickets, travel support, and more. Each division and section has its own application requirements.

Materials deadline: The abstract deadline for the ECS Meeting in which the talk will be presented

Colin Garfield Fink Fellowship: First awarded in 1962, the fellowship supports research from June through August in a field of interest to the Society by a postdoctoral scientist/researcher. The award consists of $5,000 and publication of a summary report in the award year's *ECS Interface* winter issue.

Materials deadline: January 15, annually

ECS General Student Poster Session Awards: This forum enables undergraduate and graduate students to present research results of general interest to ECS. Established in 1993, the session fosters and promotes work in electrochemical and solid state science and technology and stimulates active student interest and participation in ECS. Accepted posters are eligible for General Student Poster Awards: $1,500 for 1st place, $1,000 for 2nd place, and $500 for 3rd place. To be considered for awards, authors must submit their abstracts to the Z01 General Student Poster Session; be accepted for inclusion in the session; upload a digital poster; and be present during in-person judging.

(continued from previous page)

Materials deadline: The abstract deadline for the ECS meeting in which the poster will be presented (December 6, 2024, for the 247th ECS Meeting in Montréal, Canada)

ECS Outstanding Student Chapter Award: The award recognizes distinguished student chapters that demonstrate active participation in the Society's technical activities; establish community and outreach activities in electrochemical and solid state science and engineering education; and create and maintain a robust membership base. The Outstanding Student Chapter receives a recognition plaque and certificates; $1,000; and award recognition and chapter group photo in *ECS Interface* or other electronic communications. Up to two Chapters of Excellence are also awarded.

Materials deadline: April 15, annually

ECS Summer Fellowships: Established in 1928, up to four fellowships are awarded each year to support students' research from June through August in a field of interest to ECS. Edward G. Weston Fellowship, Joseph W. Richards Fellowship, F. M. Becket Fellowship, and H. H. Uhlig Fellowship winners receive $5,000 and publication of a summary report in the award year's *ECS Interface* winter issue.

Materials deadline: January 15, annually

Georgia Section Outstanding Student Achievement Award: The $500 prize established in 2011 recognizes academic accomplishments by students pursuing PhDs at universities in the ECS Georgia Section region in any area of science or engineering in which electrochemical and/or solid state science and technology is the central consideration.

Nomination deadline: August 15, 2024

*All awards are in US dollars.
