Thanks to Bryan Scott for pointing out that Equation (23) in the published article is incorrect. It should read:

$$C_2 = \frac{5}{32} \left\{ \frac{\pi^{1/2} \exp(-\alpha_{\perp}^2) \operatorname{erf}[(\delta_{\alpha}^2)^{1/2}]}{(\delta_{\alpha}^2)^{7/2}} [45\beta^2 - 6\delta_{\alpha}^2(\beta^2 - 6\beta) + 4\delta_{\alpha}^4(3 - 2\beta) - 8\delta_{\alpha}^6] - \frac{2 \exp(-\alpha_{\parallel}^2)}{\delta_{\alpha}^6} [4\delta_{\alpha}^4(2\beta^2 + 4\beta + 3) + 12\delta_{\alpha}^2(2\beta^2 + 3\beta) + 45\beta^2] \right\}; \quad (23)$$

the error does not affect the results in the remainder of the published article, which are derived from the correct version of the equation.
